The property features a 48'x96' metal frame shop with tin walls inside and out, offering four large overhead doors (two 14'x16' and two 12'x14') that provide easy access for large equipment. The shop is equipped with in-floor heating powered by a newly installed boiler in 2024, and one of the overhead doors was also replaced in 2024. Inside the shop, you'll find useful equipment such as a Hotsy power washer, an air compressor with wall-mounted air lines, and a drill press, all ready for immediate use.
