Restrictions Restrictive Covenant,Utility Right Of Way	Reports Aerial Photos,Building Plans	

Presenting a partially constructed industrial facility in Netook Crossing Business Park, currently built to approximately seventy-five percent completion and situated on a five-acre I-BP zoned parcel. The project totals roughly 8,000 square feet and is designed for modern industrial use, with a fully fenced and gravelled yard, on-site well water, and municipal sewer connection. The building layout includes an eighty-by-twenty-five foot drive-through wash bay, an eighty-by-twenty-five foot contained welding bay, and an eighty-by-fifty foot main shop area planned to incorporate office space, lunchroom, washrooms, and generous shop space. Major components of the structure are already in place, allowing a purchaser to complete the remaining work to suit operational requirements. The property is being offered for lease, creating the opportunity for an investor to secure a reliable revenue stream upon completion and tenant placement. Its location within a growing business park, combined with strong highway access, enhances long-term demand for industrial users.
